

## Alcohol and Other Drugs

According to the National Institute of Alcohol Abuse and Alcoholism (NIAAA), alcohol is the most widely used substance of abuse among American youth. Current research shows more alcohol is used by high school teens than cigarettes or marijuana.

### More adolescents use alcohol than cigarettes or marijuana

SOURCE: Johnston, L.D.; O'Malley, P.M.; Miech, R.A.; et al. *Monitoring the Future National Results on Adolescent Drug Use: Overview of Key Findings, 2014*. Ann Arbor, MI: Institute for Social Research, the University of Michigan, 2015.

People in the 12 to 20+ age groups drink 11% of all alcohol consumed in the United States. Older teens and young adults

consume 90% of their alcohol by binge drinking.

Alcohol contributes to aggressive behavior, property damage, injuries, and death. Underage drinkers are more likely to be the perpetrator or victim of a sexual or physical assault after drinking.

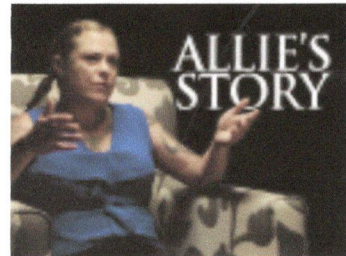

Current research shows that alcohol can prime the brain for a heightened response to other drugs. Illicit drug use and non-medical use of prescription drugs are declining, but continue to be a serious problem for young people. High-risk drinking and intoxication can lead to poor decisions including the use of illicit drugs.

3rd Millennium Classrooms has developed an add-on **Other Drugs** module that is coupled with the **Under the Influence** alcohol course or **Marijuana 101**. The **Other Drugs** module is an evidence-based prevention program and provides confidential feedback for individuals who may be using illicit drugs.

Please take the opportunity to review **Other Drugs** and how it's used with the **Under the Influence** alcohol course. Simply reply to this email and we can send you a review password.

Best regards,
